家母患有严重的糖尿病，她双腿肿胀，并曾做过膝盖骨换除手术。手术后，她须出动特制抬架，才能把她从睡床移至轮椅。数月前，每当家母双脚疼痛，义工们皆不辞劳苦的登门调整，使她双脚暂减疼痛并能安眠片刻。

由于她长卧在床，身体长有非常棘手难治的褥疮（长卧病床所衍生）。有一次，我察觉到义工们帮她调整过的溃疮，都迅速康复，疗效惊人。义工们虽身心疲惫，无论白昼或黑夜，只需摇个电话，他们仍不厌其烦即召即到的赶来调整。记得某次，家母呼吸困难，我仅此一通电话，义工们即飞赶而至，服务效率更胜911急救队！他们的爱心值得褒扬与效法！虽然义工们已尽心尽力，家母还是于去年七月中辞世了。

本人一直被膝盖韧带疼痛困扰多时，在专科医生的建议下，我施了手术，但效果不佳。由于左膝常痛，我习惯性偏右，常以右腿支撑大部分体重，日积夜累，导致我右脚跟长了一粒肉瘤，行动不便且引发疼痛，更不能下蹲，遂向巴生调整站求治。

某次，我在调整站被义工调整时，左膝非常疼痛，不禁失控尖叫，惊动全场，义工们耐心的安抚我说，此乃宇宙

能量在帮我通患部所产生的好转反应，剧痛属暂时性，当晚我回家后，却能彻夜酣眠！

经过数次的调整，我膝盖剧痛已舒缓许多，我开始可以蹲坐在矮凳了！持续调整后，虽该脚跟肉瘤仍在，疼痛竟不复存在了。

我深信只要有耐心，信心，诚心和坚心，长生学是可以创造奇迹。

## A Touching Story

I've two affectionate stories on how Ong's family making adjustments to my mum and I.

1) My mum was bedridden with diabetes, her legs were swollen and had a plastic valve replacement, she needed a hoist to transport her from bed to wheelchair.

During the last few months, Ong's family members really made my mum to a less painful, more comfortable and peaceful life. They came many times to my house willingly and eased my mum's leg pain. Due to diabetic problem, she developed bed sore which is very difficult to heal. I once remembered that Thiam making adjustment on her wound, subsequently, I noted the wound healing much faster. Another time, when mum had difficulty in breathing, just a phone call, they would rush here, even more efficient than 911 squad! Thiam's family gave me their
