动物横尸马路，我经过时通常会把它们移去路边。某一个下午，看到一只鸡卧尸马路，遂顺手替它收尸。当捉其双脚时，它竟似“神雕伸腿”踢开我的手，吓了我一跳！好气又好笑的想，“咦，不是已死了么，怎会....”细加打量，它仍躺卧在地，动也不动，双目紧闭，嘴吐血丝唾液，‘鸡胸’平静（心跳），似凶多吉少了。

自忖，常听闻和阅知长生学功能，如何不可思议的救回人命，甚至捡回鸟命（怡保）！此际正逢良机，不如也来亲身验证？我在罗里左前座先垫一片胶袋，以免弄脏，勇敢地再把它捡起（幸亏它没再发难）放进车内。

我左手放近C7穴位，右手放近C4，开始在驾座旁弯腰闭目隔空发功。由于停放路旁，烈日当空，冷气又坏，调了约10分钟，汗如雨下。眯眼偷窥，咦！鸡胸似有点动静！信心大增，更加努力。20分钟后，鸡胸鼓动加快，嘴吐淡血水并呵呵呼吸。30分钟后，鸡胸鼓动更快。40分钟，鼓动正常，太不可思议了！50分钟，它双目半睁，鸡头微抬。60分钟，双目完全睁开，并把头抬起，还东张西望耶！由于它呼吸呵呵，遂将右手移近C5（颈后），隔空调其气管。50分钟，它粗响的呼吸声竟宁静了，太神奇了！

咦！怎么它总是昂首伏趴的呢？难道脚已受伤？稍微将之抬起，它右脚独撑，左脚似跛了，遂将右手又移近隔空调其左腿。90分钟后，看它没啥新进展，可是我已汗流浹背，全身湿透，是时候收功赶去巴生福建会馆开课当义工了。最后想到，顺便帮它隔空“顺一顺”，就功成身退，才那么“一顺”，岂料它展翅拍地，单腿弹起（鸡怕陌生），惊慌而逃撞向左座车门边（罗里前座可坐三人，它在中间我坐右）！却伏坐不逃了，也许它单脚难逃吧！我遂推开左边车门把它“请下”路边，然后绝尘而去。

Resurrection of a Hen

Habitually, I move animal's dead body to the roadside whenever I see it. An afternoon, while I was driving, I saw a hen was lying on the road. As usual, I pull over and pick her up. When I grasped her legs, she kicked my right hand! I was shocked by the kick, I said to myself, "Hey, didn't you die? How did you make that...!" However, I noticed her chest was still beating. She had her eyes closed and was bleeding from the mouth. She must have just died!

I have been hearing of many stories about how humans (even a bird at Ipoh) were saved by Longevity adjustments. I was so happy that I have the opportunity to test its efficiency this time. To avoid getting stained on my car, I put a piece of plastic on the cushion. Bravely I picked the hen up again (luckily, she didn't give me a second shock!) and laid her on the plastic.

So I started the adjustment by placing my left hand to her chakra 7 (head) and right hand near to her chakra 4 (back). I was
