

Post surgery, no pain and early ambulation.

Learner: Mr. Yau

Address : Ilan County

Tel: +886-39-874316

I usually go to sleep late due to work situation, sometimes very temperamental and have aches and pains in the back. In February have taken the primary and intermediate courses, have been self-applying adjustments, and have improved.

The reason I wanted to learn Longevity, was that mother had already taken the advance course in 1999; it is that after she had an operation, then she knew how good Longevity is. Mother had an operation for cancer in the neck of uterus, night before the operation, my elder brother applied adjustments for her. The day after the operation mother was able to get up and out of the bed, this was like a miracle, even the doctor and nurses could not believe it. Mother was nearly 70 years old, after the operation, she did not feel any pain the next day, which was unusual. Mother told me, it is because my elder brother helped her with the adjustments, and she has been self-healing. Therefore, this lead me to believe the power of Longevity, and understand it a step further. Mother has been a volunteer in the treatment centre, the past few days, she has been having dry cough, doctor was not able to cure her, after three months as a volunteer, and her dry cough problem resolved without the use of medicine, it is a miracle! Mother is a living proof, I have more confident now.

Symptoms and adjustments : Cancer neck of the uterus – C7 + C2 + affected area.
Dry cough – C7 + C5 + throat + bronchus and lungs.
